## Fire Safety Attendant Training C.D

The importance and value of the Fire Safety Attendant is not to be underestimated. The primary role of the Fire Safety Attendant is to standby and monitor any maintenance work activities carried out on site where there may be a risk of fire.

The Fire Safety Attendant ensures work sites are prepared and monitored before, during and after work activities in order to reduce the potential for incidents and minimize the risk of fire starting. This training C.D will ensure that personnel designated as Fire Safety Attendants are clearly aware of their responsibilities to fulfil the role safely.

The training C.D includes:

- Full Powerpoint presentation
- Delegate training notes
- Trainer's guidance notes
- Training record & attendance form
- Course evaluation form
- Printable Certificate of Attendance

We supply complete training solutions by provision of training materials, training consultants and arranging appropriate courses.
